Republican County Tour Monday
Will be Held Because Arrange-
ments Are All Made

MEETING PLACES PREPARED

Moving Picture to Follow Speech
Monday Night Will Contain
Rushville Views

Familiar scenes taken in Rushville will be included in the republican campaign picture which will be the climax to the meeting here next Monday night following the automobile tour of the county.

The picture will be shown at the Graham Annex auditorium after the address by Congressman W. E. Humphrey of the state of Washington. The speech by Representative Humphrey, which will be the last of a number which will be delivered by Republican campaigners in Rush county on Monday, is expected to attract the largest crowd of the campaign thus far because Congressman Humphrey has held an important position in congress. He was the storm center in congress early in the Wilson administration when he made a forceful attack on the Underwood law and disclosed some of the damage to industry it had caused. The Democratic administration officials replied to him by saying that the factories affected were owned by Republicans and had been closed purposely for the effect it would have on business.

The automobile caravan is expected to leave at nine o'clock although it is likely to be a little later than that. Everyone is urged to decorate their machines, get all the passengers the automobile will carry and be prepared to start at nine o'clock. The first stop will be made at Milroy and after the meeting there, the caravan will divide and half go up the western side of the county and half the eastern, following the schedule which is announced on another page today. The two divisions will meet at Carthage and after an hour's meeting, all will move on to Rushville for the night meeting.

County Chairman Fon Riggs announced today that one of those beautiful October days had been ordered, but that if the order was not filled, the tour and meetings will be held as advertised. In other words, the tour will be made regardless of the weather. The county chairman today took up the matter with the precinct committeemen and instructed them to arrange for a place to hold the meetings at all stops in case the weather is so bad they can't be held outdoors. People living along the route of the tour are urged to decorate their homes.

Lem Dobyns of Greensburg, candidate for joint senator, and Tom Davidson, also of Greensburg, formerly a progressive, will join the tour at Milroy and do some of the speaking. Other republicans from Decatur county have also promised to join the Rush county squadron at Milroy.

Other speakers on the tour will be Harry S. New, republican candidate for United States senator; D. W. Comstock, candidate for congress from this district; Edgar Bush of Salem, candidate for lieutenant-governor; W. R. Jinnett, candidate for the legislature; Arthur R. Robinson of Indianapolis and others.

Besides the film sent out by the republican national committee, there will be a moving picture of scenes relating to the state campaign. One scene will show James E. Watson visiting with John K. Gowdy, former state chairman and former consul-general to Paris, under the spacious awning in the back yard at Mr. Gowdy's home. In the same surroundings will be shown State Chair-

SAYS HUSBAND CHOKED HER

Hazel M. May Brings Suit For Divorce From Walter May.

Mrs. Hazel M. May filed suit for divorce this morning from Walter May, alleging cruel and inhuman treatment and failure to provide. The complaint states that they were married March 16, 1912, and separated July 1, 1916. The plaintiff alleges that he failed to provide a home for her and at no time contributed to her support. She states that he frequently struck her and at one time choked her. Mrs. May asks the custody of their two children.

HEAVY FROST IS PROMISED TONIGHT

Skies Will Clear and Tomorrow Will
be Warmer, the Weather Man
Forecasts Today

SNOW SEEN ALL OVER COUNTY

Warmer weather is promised for tomorrow by the weather men, following a heavy frost tonight. The skies will clear by tonight, he says, and prepare the stage for the frost that is supposed to fall.

There wasn't any doubt about the winter weather last night, because the wind continued to blow a gale until early this morning, but the mercury did not decline below 36 degrees above zero, according to all reports. The thermometer did not register more than 38 degrees up to noon today, indicating that it was not getting warmer very fast.

Reports from all over the county today were in effect that the snow of yesterday was general. Elwood Kirkwood, county observer for the United States government, says there were some very large flakes fell in the neighborhood in which he lives and resembled a typical winter blizzard.

DIES SUDDENLY OF HEART TROUBLE

Acute Indigestion Also Combines to
Cause Demise of James Fisher
of Richland

ONCE TOWNSHIP TRUSTEE

James Fisher, 63 years old, a well known farmer of Richland township, died suddenly this morning at his home in Richland, following an attack of acute indigestion and heart trouble. Mr. Fisher had suffered for several years from heart disease, but this morning appeared to be in his usual health and ate a hearty breakfast. He arose from the table and has just reached a chair in the adjoining room when the attack came. He was barely alive when the attending physician arrived and lived only a short time, without regaining consciousness.

Mr. Fisher was widely known. He was a former trustee of Richland township and had for many years been an active republican. Mr. Fisher recently returned from a visit with his son in Chicago and it is the opinion of physicians that he did not take the proper care of himself while there. He is survived by his widow and two children, Wilbur of Chicago and Mrs. George Keisling of Richland.

The funeral services have not been completed pending the arrival of the son from Chicago.

ARLINGTON MAN GRANTED DECREE

Lewis J. Gowdy is Given Divorce
Today When Wife Fails to
Contest the Case

\$100 FOR CHILD'S SUPPORT

Judge Sparks Assesses \$300 Against
Alfred Sharp When Jury Finds
for Mary Souther

Lewis J. Gowdy was granted a divorce this morning from Dora Gowdy upon payment of the costs. He is also to pay \$100 for the sole support of their child. The Gowdys reside near Arlington and a large number of witnesses from this community were called, but the plaintiff only used four witnesses and Mrs. Gowdy failed to fight the case as was expected. On a cross-complaint she had asked for \$1,000 alimony.

Gowdy alleged cruel and inhuman treatment and accused his wife of being intimate with Samuel Hinton. Three witnesses testified that they had frequently seen Hinton visit the Gowdy home and at a time when Mr. Gowdy was not there. The plaintiff was represented by Chauncey Duncan and the defendant by Goddard and Craig of Greensburg.

The jury yesterday which heard the case of Mary Souther against Alfred Sharp, decided that he was the father of her child. The jury took only three ballots, the first standing 10 to 2 for the plaintiff, the second 11 to 1 and a verdict was reached on the third ballot. The court then ordered that Sharp should pay her the sum of \$300. According to the ruling of the court, \$100 is to be paid within 30 days; \$100 on or before December 1, 1917 and the last \$100 to be paid on or before December 1, 1918. The costs of the case were adjudged against Sharp.

The grand jury was called this morning to meet Tuesday. This is the second meeting of the grand jury this term of court. What is under investigation is not known, but many witnesses have been called from Jackson township.

Judge Raymond Springer of Connersville was here a short time this morning and sustained a demurrer of Thomas E. Botorff to the second and third paragraphs of the complaint in the suit brought by Leonidas Keisling against Botorff and the Milroy Milling Company for money had, in which the demand is \$10,000. After sustaining the demurrer the court granted the plaintiff permission to amend the complaint providing it was done within ten days.

MAKES DESERTS TO PROVE WORTH

Miss Garvin of Purdue Advocates
Kind Which Can be Made Be-
fore Meal is Served

CLOSES HER LECTURE SERIES

Mixed in With Recipes and Demon-
strations are Suggestions and
Hints on Cooking

"The average housekeeper has enough to do at the last minute before serving a meal without bothering with a dessert, especially when there are so many desserts that can be prepared in advance.

In an effort to demonstrate the most convenient and most practical desserts, Miss Garvin, head of the domestic science department at Purdue university, suggested this and a number of other worthwhile facts to the up-to-date cook. Her demonstration this morning at the court house was on "Attractive and Simple Desserts From Inexpensive Materials." This afternoon she demonstrated "Attractive and Palatable Salads From Materials Found in the Average Home."

Mixed in with the recipes and demonstrations were suggestions on cooking and hints that make preparation easier and results better. "Chocolate, for a number of reasons is an excellent food. There is such a variety of ways it may be used; with milk it can be served a number of ways; and it keeps well. We must be careful, however, in the preparation of chocolate to break down the starch grains in cooking. For the drink chocolate, the starch in it should be cooked at least an hour. For this reason, I usually take one-half a box of cocoa, mix it with an equal part of sugar, make a paste with water and after cooking it smooth, cook it in a double boiler for an hour or two. This mixture is then put in a glass jar and at any time, by using two teaspoons of it for a cup of cocoa you have cocoa that is quickly made and well done," said Miss Garvin.

One of the first puddings demonstrated was the Norwegian Prune pudding. "This pudding can be made the day before it is served. Prunes, too, are a good basis for pudding, both because they are cheap and have nutritive value. The ingredients are: 1 pound of prunes, 2 cups of cold water, 1 and one-third cup of boiling water, one-third cup of cornstarch, one cup of sugar, one teaspoon of lemon juice. Wash the prunes, boil for one hour in water until soft, add sugar and allow to simmer ten minutes; dilute cornstarch with cold water and add cook 7 minutes; add cinnamon, lemon juice, chill, cover with whipped cream and serve," explained the domestic science expert. "It is often as good to use water, as milk in cooking and as good to use lard as butter, as long as people do not know that you have substituted."

Miss Garvin then made an excellent chocolate pudding that could be baked or steamed. "It is mixed like ordinary cake mixing the dry ingredients then adding the liquids," she said. It includes one-fourth cup of butter; 2 cups of flour, 2 teaspoons of baking powder; one-half cup of water; two-thirds of a cup of sugar; one egg and two ounces of chocolate. Melt the chocolate, mixed with a little water, mix dry ingredients and add to them the chocolate and flour and so on. It may be served with a lemon sauce or the following chocolate sauce: 2 squares of chocolate, one cup sugar; one half cup milk; one cup water; 3 tablespoons of flour, one-half teaspoon of salt and one teaspoon of vanilla. Mix dry ingredients, add water and cook until thick. Let

He was committed there following an examination by police physicians.

WALTER E. SMITH ASKS FOR DIVORCE

Alleges Cruel and Inhuman Treat-
ment, Asserting That Wife Left
Home Without Cause.

SAYS SHE REFUSES TO RETURN

Walter E. Smith this afternoon through his attorneys, Kiplinger and Smith brought suit for divorce from Marguerite E. Smith, alleging cruel and inhuman treatment. According to the complaint, they were married April 15, 1916, and separated October 1. The complaint states that the defendant wholly without cause left the home of the plaintiff and removed her clothing and belongings and has refused to return.

It is averred that at divers times she refused to cook his meals and compelled him to leave his home and eat at public places or at the home of his mother. The complaint asserts that she has a child about two years old by a former marriage and that she gave the child her entire attention and threatened the plaintiff when he attempted to correct the child and forbade him having anything whatever to do with the child.

LIVES LOST; HEAVY DAMAGES ON LAKES

Six Sailors are Known to be Dead
and Fate of Fourteen Others
is in Doubt Today

TWO LAKE STEAMERS SUNK

(By United Press.)

Detroit, Mich., Oct. 21.—Six sailors are known to have been lost and the fate of 14 others is in doubt; two lake steamers were sunk and several stranded in the storm that swept the great lakes last night and today.

Scores of vessels were driven to shelter by the 50 mile gale which swept Lake Erie and it is feared that late reports may bring news of additional disasters.

The fate of eleven men on board the steamer Marshall F. Butters, which foundered in Lake Erie last night was established today. Ten survivors were rescued by the steamer Hartwell and landed at Fairport, O. One of the crew, the wheelman, was lost.

GIRL'S LOVER TRIES SUICIDE

Joe Borders of Connersville Takes
Blue Vitrol After Aileen Gilson's
Successful Attempt.

HER DEATH DUE TO QUARREL

Borders Tells Coroner She Drained
Bottle in Front of Him Before
he Could Stop Her.

Following closely the suicide of Miss Aileen Gilson came the attempt of the girl's lover, Joe Borders of Connersville to end his life. Borders drank a solution of blue vitrol last midnight but will recover. He attempted to take his life at the same place used by the Gilson girl, the home of Mrs. Myrtle Hood, 225 West Third street. Borders was not very sick and suffered more from hysteria occasioned by the girl's death.

The cause of the Gilson girl's death has been laid to a lovers' quarrel. According to the best information available, Borders and the Gilson girl had been keeping company for some time and yesterday afternoon Borders and Clifford Rigor, both of Connersville, came here to see Miss Gilson and Grace Leisure. Both girls were staying at the home of Mrs. Hood.

According to the first story told by Borders to Coroner Green, the two men decided they would go on to Indianapolis and this caused objections on the part of the Gilson girl. A quarrel followed and Miss Gilson ran upstairs. Borders followed her and the quarrel was renewed. As he turned to go she declared that she would end it all and lifted a small bottle to her lips.

Borders declared to the coroner that she drained the contents before he could knock the bottle from her hand. He then picked her up and carried her down stairs and proceeded to give her hot water. This had little effect and she died within fifteen minutes. From all indications Rigor was not in on the quarrel. After the girl's death Borders displayed signs of being hysterical and the climax came about midnight when he attempted to take his life. A physician was promptly called and today he was reported as being out of danger.

The remains of the Gilson girl were taken to the home of her parents, Mr. and Mrs. Ed Gilson, 322 East Seventh street, this morning. The funeral services will be conducted Sunday afternoon at three o'clock at the late residence by the Rev. C. M. Yocum and burial will take place in East Hill cemetery.

OLD-TIME COLD CURE— DRINK HOT TEA!

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Tee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold. Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB RHEUMATISM FROM STIFF, ACHING JOINTS

It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache, neuralgia. Limber up! Get a 25 cent bottle of old-time, honest "St. Jacobs Oil" from any drug store, and in a moment you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.

RUSSIANS FORCED BACK BY GERMANS

Three Thousand of Enemy and Several Hundred Guns Captured by Mackensen's Army

SUCCESS IN TRANSYLVANIA

(By United Press.)
London, Oct. 21.—Under terrific blows by Field Marshall Mackensen's German-Bulgarian-Turkish army the Russians have been driven back in several places. The German war office announced this afternoon that the entire line had been forced, the main position of the enemy stormed and 3,000 Russians and several hundred guns captured. The Russian war office admitted a reverse, including the loss of an important village to the Germans, according to a dispatch from Petrograd.

In the Transylvania where the Roumanians are on the offensive the German war office claims successes in mountain fighting and declared the Roumanian losses were heavy.

Mackensen's new offensive, it is considered certain here, was ordered to bring about the withdrawal of Roumanian troops from Transylvania where the Roumanians continue vigorously on the offensive.

Reports from other sources show that the Serbs have made further advances southeast of Monastir. The French war office declares that the Bulgarians refuse to concede defeat although they admit severe attacks.

"In these days when so many dishes are hard to make and doubtful as to their success, it is a joy to have one that we know will be good. This one practically always turns out alright," Miss Garvin said. "A chocolate bread crumb pudding, an 'afterthought,' grape lacto, sour cream pudding, and cherry pudding were all demonstrated or recipes given for them.

Practical and delicious salads were made this afternoon by Miss Garvin. Too, they were new. Some of them were tuna fish salad; cabbage, banana and nut salad; pimento salad; apple celery salad with peanut butter dressing; cottage cheese salad; and mayonnaise and boiled dressing were made and sampled this afternoon.

Miss Garvin was brought here under the auspices of the Domestic Science Club and has proved an inspiration to the club because of her new and useful ideas and ability to demonstrate them clearly.

The Influence of Clothes

¶ For the visual influence of clothes, look to the stage. The matinee idol is always immaculate.

¶ For the authoritative influence of clothes look to the brass-buttoned uniform of a policeman. This impression imparts a sense of security as well as respect.

¶ For the soul-stirring influence of clothes, look to the uniformly clad corps of soldiers on parade or marching off to war.

¶ For the democratizing influence of clothes look to our conventional everyday civilian garb. Millionaire and pauper, employer and employe, doctors, lawyers, senators and scientists dress almost entirely alike.

Bandits of Revolution.

The Secretary of War, Mr. Baker, although merely saying in public what President Wilson has often implied in private, has stirred up a hornets' nest by comparing the soldiers of the American Revolution with the Villistas and Carranzistas of Mexico of today. Referring to many peoples failure to understand the Wilson Mexican policy, Secretary Baker said, "They have forgotten our own history and the Declaration of Independence, and the President has not forgotten either." He admitted that the Mexicans were a rascally lot, but said that the patriots of the American Revolution looted churches and drove ministers from them on their march to Valley Forge. He said, "We had a revolution and from its beginning to its end conditions in this country were so like Mexico that it is perfectly astounding to read." The Empire State Society of the Sons of the American Revolution, with a Democratic President, promptly met and adopted a resolution severely censuring Secretary Baker for thus likening the American patriots to the horde of Mexican bandits who have reduced that country to a state of anarchy and perpetrated unspeak-

man Will H. Hays paying a visit to Mr. Gowdy.

Pictures of all the state candidates will be shown and there will also views of the Fairbanks notification ceremonies and the visit of Mr. Hughes at the Fairbanks home when he spent Sunday there following his three-day tour of Indiana.

The national committee film shows Mr. Hughes and his family at Bridgehampton, his summer home; it then shows the most striking views taken of him and Mrs. Hughes on their trip throughout the United States; the first at Niagara Falls; then at Detroit, where he is received by large gatherings of labor men; then at Grand Forks, N. D., and Medora, N. D., where he is shown with the miners and going down into the copper mines; at Butte, Mont., he is shown being received by the cow boys. At Tacoma, Wash., San Diego, Cal., Estes Park, Colo., Syracuse, N. Y., Nashville, Tenn., he is addressing large audiences in stadiums and at open meetings. All through there are headings containing campaign arguments which are quotations from Mr. Hughes' speeches.

"The Reunited Party" is shown by pictures of Mr. Roosevelt speaking at Lewiston, Me., and of Mr. Roosevelt entertaining the Republican National committee at Sagamore Hill. It also shows the meeting between Mr. Taft and Mr. Hughes at Bridgehampton.

Preparedness and Patriotism are illustrated by scenes taken of the fighting at Vera Cruz; the funeral procession at Vera Cruz and New York of the men who were killed; also scenes of troops going to Mexico and refugees obliged to leave Mexico. There are also battleship scenes—battleships authorized under Republican administrations.

The film will be of great interest to the public as it pictures Mr. Hughes as we know him, and the pictures of him taken under varied conditions give the public an intimate knowledge of his character and personality.

This picture is an interesting film, taken of actual scenes and representing facts of historic interest.

WANTED KNOT TIED WELL.

Columbus, Ind., Oct. 21.—When they found out that a marriage in which the bride or groom uses a fictitious name is illegal, Mr. and Mrs. Lester Brown went to Justice Kinney, who was confined to his bed with pneumonia, and had the ceremony performed a second time. Mrs. Brown, who was formerly Miss Marie Evelyn Anderson, had given a fictitious name to the clerk because she did not want her parents to learn of the marriage.

The ministers and their wives of all congregations have been invited to the Epworth League service at the St. Paul's M. E. church tomorrow evening, beginning at 6 o'clock. Ernest Marlatt will lead the meeting with the subject "Second Mile Religion." Miss Mary Louise Bliss will sing a solo and Miss Esther Anderson and Miss Louise Poe will sing a duet.

Pathos and humor in colored dialect, you'll hear at the St. Paul's M. E. church, Tuesday evening when Mrs. W. D. Long reads. 18911

SAYS HOT WATER WASHES POISONS FROM THE LIVER

Everyone should drink hot water
with phosphate in it,
before breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean, almost every morning, to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

If you get headaches, it's your liver. If you catch cold easily, it's your liver. If you wake up with a bad taste, furred tongue, nasty breath or stomach becomes rancid, it's your liver. Sallow skin, muddy complexion, watery eyes all denote liver uncleanness. Your liver is the most important, also the most abused and neglected organ of the body. Few know its function or how to release the dammed-up body waste, bile and toxins. Most folks resort to violent calomel, which is a dangerous, salivating chemical which can only be used occasionally because it accumulates in the tissues, also attacks the bones.

Every man and woman, sick or well, should drink each morning before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Limestone phosphate does not restrict the diet like calomel, because it can not salivate, for it is harmless and you can eat anything afterwards. It is inexpensive and almost tasteless, and any pharmacist will sell you a quarter pound, which is sufficient for a demonstration of how hot water and limestone phosphate cleans, stimulates and freshens the liver, keeping you feeling fit day in and day out.

TARGET EVENTS START SUNDAY

National Rifle and Revolver Championships to Open at Jacksonville, Florida.

THREE TROPHIES OFFERED

Flower of American Marksmen to Meet in Competition—Special Ammunition Made.

(By United Press.)

State Camp, Black Point Reservation, Jacksonville, Fla., Oct. 21.—The flower of American marksmen tomorrow will take the firing line for the national individual rifle championship, which marks the opening of the annual national rifle matches, here.

This event will be followed by the national pistol matches, which, in turn will be followed by the event of supreme interest to rifle enthusiasts—the national team matches.

This year, for the first time in history of the matches, Congressional appropriation was made for the participation of civilian teams—each state to send a representative team, with expenses paid by the War Department.

The national team match carries with it three trophies, much sought after by marksmen. The first in desirability—since it goes to the team with the highest score—is the National Trophy, a bronze plaque depicting Mars holding in leash the dogs of war. This was won in the 1915 competitions by the United States Infantry team, and is on exhibition at the War Department. It measures 27 by 48 inches.

The second winning team is awarded the Hilton trophy, one of the oldest trophies in competition today. It is the most expensive of the three, being valued at \$3,000. It was first competed for in 1878, at the old Creedmore, New York range. It was presented to the United States Government in 1903 at the inauguration of the National matches, by the National Rifle association.

The third trophy is the noted, "Soldier of Marathon" bronze trophy first placed in competition in 1875 in the old Sea Cup Girt days.

The order of fire and conditions governing the national team match have been set as follows: first, rapid fire, 200 yards; second, slow 20 shots at each range. No sighting shots are allowed. Positions, for fire, 600 yards, third, slow-fire, rapid fire, kneeling; slow fire prone without sandbag rest at 600 yards.

The arm will be the United States service rifle to be furnished by the Ordnance Department. Special ammunition has been manufactured by the Department for the matches.

RUSHVILLE WINS ANOTHER CONTEST

High School Basketball Team Takes New Palestine Down the Line to Tune of 38 to 11

CONNERSVILLE HERE NOV. 3

The Rushville high school team annexed another victory last night, winning over the New Palestine high school by a score of 38 to 11. Despite the lop-sided score the game was interesting and both teams displayed flashes of real form. The local team is rapidly rounding out and the victory over New Palestine was earned. The first half ended 14 to 5 in favor of Rushville. New Palestine went to pieces in the last half and Rushville walked away with the game.

The New Palestine team was accompanied here by a crowd of 75 rooters and there was plenty of noise making. In the curtain raiser the high school second team defeated the Tigers, 18 to 9.

The next game on the Rushville schedule is with Arlington next Wednesday night and Coach Masters believes these preliminary games will condition the team and assure a victory over Connorsville here on November 3.

ST. LOUIS MAYOR PRAISES WATSON

Henry W. Kiel, Attending Jovian Convention in Indianapolis, Says he Should be Recognized

WELL QUALIFIED TO SERVE

Declares Republicans of Missouri Feel That Indiana Will Stand by Him This Election

Indianapolis, Ind., Oct. 21.—Henry W. Kiel, mayor of St. Louis, Mo., who is in Indianapolis attending the Jovian convention, was a caller at the Republican state headquarters in the Hotel Severin yesterday. Mr. Kiel declared that the campaign in Indiana is being watched with the keenest interest outside of this state, particularly the campaign for the election of the United States senator.

Mr. Kiel called at the offices of James E. Watson, candidate for United States senator, and congratulated him on the effective campaign he is making.

After leaving Mr. Watson's headquarters Mayor Kiel said:

"The Republicans of Missouri regard Mr. Watson as a man particularly well qualified to serve the people of his state and of the nation. He has had a wide experience in legislative affairs, and has a record for honesty and loyalty that the people of Indiana should recognize by a decided majority in the November election. Mr. Watson's consistent course in standing for the great principle of a protective tariff is known and recognized throughout the country. He has stood for the protective principle at times when such stand was not popular, but he had the strength of his convictions, and his support of an adequate tariff law has been vindicated. We, in Missouri, have faith that Indiana will recognize the work and worth of Mr. Watson."

When James E. Watson concludes his tour of Marion county tonight with a rally at Fountain Square, in Indianapolis, he will have made approximately 35 speeches in the county since Monday noon. He spoke to the republican traveling men's organization at 1:30 this afternoon at the Severin hotel and at 3 o'clock, he was to speak at Cumberland. At 7:30 he will address an audience at Morris and Harding streets and at nine at Fountain square.

Before a crowd of farmers at Acton last night, he again assailed the Democratic national policies, particularly with reference to the tariff

Have you seen the ESTATE HOT STORM—the stove with a little furnace in it? If you are interested in the heating problem, don't fail to investigate it thoroughly.

We make no extravagant, impossible claims for this stove. It will NOT consume ROCK or SLATE in the coal. But it WILL burn up every particle of combustible matter in the fuel and give you the most comfortably warmed house you ever had.

Its JOINTLESS LEG BASE and bottom insures a warm floor and a perfect fire keeper during the life of the stove.

It has the most perfect hot blast system you ever saw—no flues or rings to fill with ashes and burn out.

The "Little Furnace" is the greatest improvement ever added to a hot blast stove. All the others are practically the same as they were fifteen years ago.

There are a number of other important features on this wonderful stove which we will be glad to explain to you.

Leave your order now and avoid disappointment later.

question and the Mexican situation. He declared that President Wilson has declared repeatedly in favor of a protective tariff as opposed to the present Democratic law on revenue schedules and sounded a warning note that the United States will need the Republican tariff system after the close of the European war. "Woodrow Wilson has repeatedly declared for the protective tariff system in his history, written before he became President," Mr. Watson declared. "The Democrats were given control

said, "and I have never known a man who could take a more directly opposite view of a subject than he has of the tariff issue." With reference to the Mexican situation, Mr. Watson cited the bungling operations of the Wilson administration and showed how the American flag has been insulted repeatedly by Mexicans. A definite policy that will indicate to the nations of the world that the United States means to protect its citizens everywhere is all that is needed to

keep the country out of war, he declared. Mr. Watson spoke at noon yesterday to the employees of the Prest-O-Lite Company. He pointed out the failure of the Democratic party to keep its campaign pledges. He referred particularly to Senator Kern's campaign six years ago with reference to the high cost of living. At that time Kern asserted that if of both Houses of Congress the cost of living would be reduced materially.

A party of little folks from this city went to Indianapolis this morning to attend the birthday party given by little Miss Elizabeth Wolfe, daughter of Mr. and Mrs. Charles Wolfe, formerly of this city. It was an all day affair and from this city were Marjory Beale, Kathryn Blount, Frances Payne and Kathryn and Joseph Watson.

EMBROIDERY CLUB

Several lovely bouquets of cosmos adorned the rooms in the home of Miss Nelle Winship in East Fifth street when she entertained the members of the Embroidery Club yesterday afternoon. A delightful social courtesy was extended to Mrs. George M. Myers of Kansas City, Mo., by her hostess Mrs. Claude Cambern, at the thimble party given at her home in North Main street yesterday afternoon. Lovely bouquets of fall flowers aided in the pretty picture that the spacious rooms presented.

Late in the afternoon the guests were seated at small tables for the service of an elegant two course dinner.

HALLOWEEN MEETING.

Halloween ideas predominated at the meeting of the Social Dozen held with Mrs. Sam Innis at her home in North Perkins street yesterday afternoon. The regular club members were present for the social time together, after which a two course luncheon was served in the dining room. From the center of the pumpkin in the center of the table, tumbled bunches of marigolds. Surrounding this and all about the tables were weird black witches, owls, cats and other suggestions of the season. The candles, which cast a soft glow over the table were hooded with Halloween shades. The next meeting of the club will be with Mrs. William Mulno.

Mrs. Dorothy Anderson, district deputy of the R. N. of A. will attend the regular meeting of the order Monday evening. Every member is urged to be present.

PLANNING FOR THE WIERD HALLOWEEN PARTIES STARTS

With the approach of Halloween comes the planning for the weird little parties and mad gaities that rule the day. Already the new and clever little souvenirs are in evidence in the stores, even the masques and costumes have made their appearance in readiness for the eventful day.

The ideas for the affairs need not be new ones. In fact the old superstitions continue to be most popular, thanks to the face that they are tried and true. Incidentally most of these diversions are tests for true love. Some of the most popular ones follow.

Take three saucers. In the first put clean water and leave the third empty. Lead a blind folded maiden or man to make the test. A forefinger dipped into the clear water shows that a young and handsome

bride or groom is on the way; a finger dipped into the soapy water foretells marriage to a widow or widower; but if the finger lands in the empty dish, single blessedness is sure to follow.

Pare an apple round and round, whirl the peeling three times around your head, then throw it behind you, repeating:

"By this magic paring I wish to discover the first letter of the name of my true lover."

Then turn and behold the twisted initial.

Go blindfolded up to a table where there are vegetables of all seasons. If you draw celery, your future husband or wife will be tall and slim. If you draw cabbage—you will have no difficulty in coming to the right conclusion.

TALENTED READER WILL APPEAR HERE

On Tuesday evening of next week, Mrs. W. D. Long, a very talented reader from Indianapolis will give a recital here at the St. Paul's M. E. church under the auspices of the classes taught by Mrs. Hackleman, Mrs. Wolcott and E. B. Thomas. The Rushville people are very fortunate in having this opportunity to hear Mrs. Long again, for she has appeared here before with universal popularity. Her speciality is negro dialect.

The Shelbyville Democrat gives the following account of her program given there Saturday:

Mrs. W. D. Long, of Indianapolis, a distinguished reader who has appeared before large assemblies throughout the country and before chautauqua audiences, everywhere was warmly received. Her speciality is negro dialect. Being a native of the Blue Grass region around Lexington, Ky., she thoroughly understands the negro's characteristics and speaks knowingly. Her selections dealt with plantation life "befo' de wah," life as lived in the old Colonial mansions and in "the quarters," the Patriarchal life prior to 1861, when the negro led a gay, happy, irresponsible life. She paid tribute to the colored "mammy"—her gentleness and tenderness and the love that existed between her and the white child. One number pictured the negro's desire "to ac' just like quality folks." Another, described the fascination of "Old Missus Fine Clothes." A gentle touch of sarcasm was couched in "Black Mammy's Experience at a Mother's Club," and hearing what educated folks had to say about "de raisin' of chillun." All of which did not dispel Mammy's belief in the moral 'suasion of de hickory switch.' Among other numbers given were "Mother's Experience with Seven Children;" "Hayin' Pietur Tuk;" "Old Turkel-Tail Fan," and "Uncle Zeebe's Appeal" to be retained as sexton of the cemetery. Mrs. Long's numbers played thru the entire gamut of the emotions. She recited with telling effect Paul Laurence Dunbar's "Dey listed colored soldiers," in which pathos, pride and patriotism were intermingled.

Mrs. Long's magnetic personality and sympathetic insight into negro characters carried her audience with her during recital.

A very appropriate program on Discovery Day was given at the last meeting of Connorsville's Carey Club, "The Discovery of America by Columbus" and "Earlier Discoveries by the Northmen" were subjects of the two principal papers read.

Clinging to the popular centennial programs for this year, the Woman's Club at Mt. Summit had papers on "Colonial Writers and Literature of America" and "Religious and Social Reformers of America."

Gossips

From a child I always liked to hear a bit of gossip, and was not slow in repeating all that I heard. Several times I found there was not a word of truth in the gossip I repeated. Still, I did not realize the harmful effect upon my character, nor the injury done to others. As I grew, this bad habit also grew.

Once I was much embarrassed by being asked by the malinged one why I had told such and such a thing. I easily got out of this by giving my authority, but I had made an enemy for life.

One day while reading a magazine I chanced on the following story.

A Catholic woman came to her priest in confession. Among other sins, she confessed repeating a piece of gossip about a neighbor to a number of friends. The priest told her to go and gather a lot of thistle blooms, and scatter them to the winds, and return to him. She did this; and when she returned, she was told to go and gather up all the thistles she had scattered.

"But I cannot do that," the woman replied. "Some of them have been borne so far I could never find them."

"The gossip you have repeated is, like the thistle, scattered all abroad," replied the priest. "Until you can gather up and take back each unkind word, you can never repair the wrong done this neighbor. Go and sin no more."

This little story opened my eyes, and I realized for the first time the magnitude of the fault and what a hold it had on me.

I have had many a hard fight to overcome the gossiping tendency, but feel that I have at least conquered.—American Magazine.

BUGS HAVE MERRY TIME WITH HUMANITY DOWN IN BRAZIL

Margaret Mason Digresses Long Enough To Explain, While On Her Tour Of South America, The Ticklish Positions In Which You May Find Yourself, While Trying To Avoid Ticks. By The Watch, There Have Been Found To Be As Many As Sixty Ticks A Minute. You May Flee The Bed, She Says, But You Can Never Flee The Flea.

BY MARGARET MASON.
(Written for United Press.)

All the bugs are full of tricks

Down in Rio Bay

Folks are also full of ticks

On their jungle way.

Then to nearly drive 'em frantie.

As they start to flea

Ant and tick cut up an antie

Ere they let 'em bee.

Rio de Janeiro, Sept. 20—(By Mail)—Brazil abounds in bugs human and otherwise. Joyous little fleas leap lightly from limb to limb. You may flee your bed but you'll not flee the flea. Strange as it may seem you won't find a tick in your bed though. The festive tick nests rather in the jungles. When you go mountain climbing, orchid hunting or butterfly chasing you'd better watch out for ticks for you're sure to be covered with them. If you keep a watch on your wrist you'll find as many as sixty ticks a minute. I know a man personally who made this ticklish record.

Brazil is the happy hunting ground of the ant, relatively speaking. There are all sorts and conditions of ants, big, little, red brown, and black. A young American engineer told me of an ant experience he once had in the interior of the country. He stopped his horse to rest under a huge tree and when the horses tamped and pranced around he investigated. The whole ground seemed to be moving with a vast army of ants while up in the tree was another mess of them cutting the leaves in half and dropping them down to the ants below who carried them away. The young engineer said when he came back over this same road in a couple of hours the tree was stripped absolutely bare.

As can readily be seen ants are rather rough on vegetation and when they get in an orange grove they strip it in a single night.

Up in the interior the natives get even with the big fat ants by eating

them. They roast them till they pop. This is considered a great delicacy and although I never tried any in this style I've had several small black ants served in my soup.

A meek little bug is one that starts in at the foot to get a toe hold on life. It burrows in under your toe nail and proceeds to lay eggs and establish a cosy little home in toto. An ingenious young Yankee who decided to leave one nesting in his toe nail till he got back to the U. S. A. where his doctor brother could do some research work only lost three of his toes as an outcome of his scientific enthusiasm.

A natty little gnat swarms around the lights down in the town until it gets tired. Then it sheds its wings and proceeds to eat up all the wooden furniture and household fixtures in sight. Native wool is just pie for it. A dining room suite is only a light lunch. That is why wood for finishing houses and making furniture is mostly imported here. This little insect has a great literary bent also and has been known to go through a complete set of Shakespeare in a single night.

Any thing in spiders from a teeny weeny one to a tarantula can be spied around Rio and there is an insect like our cricket only three times as large that serenades you madly in a great chorus when the night begins to fall. It is tobacco brown in color with a blunt head and has been christened "Gigaro" because by a wild stretch of the imagination it may be said to resemble a cigar butt. Three opal like jewels are set in its forehead. Other jeweled bugs are the many iridescent beetles that abound here. Of the legion of gorgeous butterflies one of black and scarlet is especially odd with a perfect figure 88 on each rear wing.

And yet with this great array of insect life of which I have only cited a paltry portion Rio doesn't need screens in its windows. It lacks the two greatest insect pests of the U. S. A. the house fly and the mosquito. Not but what it was formerly filthy with this pernicious pair but the government got busy. They established a department of sanitary police who spend their time tracking mosquitoes to their lair and swatting flies. All water supplies are regularly personally inspected and no pools of still water allowed to collect anywhere hereabouts.

I saw a squad of these sanitary police in a patrol wagon the other day on the Avenida Rio Branco. They were all heavily equipped with guns and wartridge belts. I suppose they were going out to hunt mosquitoes.

OLD LADY FEELING FINE

After Taking Four Bottles Of Cardui, The Woman's Tonic.

Cobden, Ill.—“Having used Cardui, the woman's tonic, in my family, for a number of years,” writes Mrs. Kate Metz, of this town, “and always with such good results, I feel it my duty to write you about it, so that you may publish my letter.

My mother is living with me, and she is 52 years old. For the last three or four years, she has been troubled a great deal with cramping spells, and for days at a time, she would have a severe headache.

She read of how much Cardui had helped other women who were sick and ailing, and decided to give it a trial. She began taking it three times a day, and since then has been getting along simply fine.

Mother only used four bottles of Cardui, but she is no longer troubled with the severe headaches, and her stomach is so much stronger that she can eat most anything.

We both feel that any lady who is not strong and well, would be greatly benefited by the use of Cardui.

Try Cardui.

American Cavalrymen on Border are Made Target for Mexican Bullets and Skirmish Follows

ENGAGED BY LARGER FORCE

Whether Attacking Party Was Composed of Bandits or de Facto Troops Has Not Been Learned

San Antonio, Texas, Oct. 21.—American troops and Mexicans clashed near San Jose, in the Big Bend country, Thursday afternoon according to a report received by General Funston last night from Colonel Joseph Gaston, commander of the district. The fight lasted 45 minutes.

No losses were suffered by the Americans and information is lacking regarding loss among the Mexicans.

Colonel Gaston's report said that a band of about 30 Mexicans opened fire on a detachment composed of 23 men of the Sixth Cavalry and Texas National Guard Cavalry squadron engaged in patrol duty between Presidio and Ruidosa. Lieutenant Cudington, of the Texas squadron, commanding the troops ordered his men to return the fire.

A vigorous exchange of shots continued for a period of 45 minutes, the Americans and Mexicans firing in skirmish formation from covered position on either side of the Rio Grande. Information from Colonel Gaston did not indicate that the United States troops crossed in pursuit of the Mexicans.

After the fighting Lieutenant Cudington returned to Ruidosa with his command.

Whether the Mexicans were de facto Government troops or members of a bandit band was no known by General Funston. He is awaiting detailed report of the action.

Colonel Gaston reported that Major A. V. P. Anderson, of the Sixth Cavalry, has gone to San Jose to investigate the incident. Colonel Rios, commander of the Carranza garrison at Ojinaga, has gone to the scene of the fight for the same purpose, according to Colonel Gaston.

OBITUARY

Mary A. Butler was born April 14, 1845 and passed to her reward at her home in Indianapolis, Sept. 21, 1916, aged 71 years. She has been a sufferer for many years. Her last illness was of four weeks duration.

In the midst of her suffering she could rejoice in her loving Shepherds care and the kindly sympathy of her family and friends and she lay down at night never to awaken on earth. She was found sleeping in the sleep of them who “rest from their labors.”

When a child she became a member of the M. E. church and learned from her Master that which gave her peace. Mrs. Butler was born in Cincinnati, Ohio, but moved to Metamora, Ind., when a child where she lived until after her marriage to Henry Butler on Jan. 15, 1885, with whom she lived happily until his death at their home in Manilla, Ind., on Dec. 8, 1910.

She is survived by four daughters Mrs. A. S. Porter, Mrs. Henry Hartman, Edna and Mayme Butler. One sister, and one granddaughter. She also leaves numerous friends and relatives of her husband and herself.

Mrs. Butler was a woman that was well liked, and as a mother was all that the name implies, looking always for the welfare of her children.

I dropped a pansy on her brow;
“Pansies for thought,” I said,
And marveled when they whispered low

That she I love was dead.
I placed a lily in her hand;
“An Easter hope,” I said,
And turned to the invisible;

None there, or here, is dead.
I laid a rose upon her breast;
“The rose for love,” I said.
My heart was bounding with pure joy,

I knew she was not dead.
For she was an embodied love,
And thought, and purpose high.
These, the unseen, eternal things,
How can they ever die!

WOMEN ANNOUNCE RESULT OF POLL

This is the Day That Mr. Congressman Who Opposes Them Will Get His.

RECOMMENDATIONS ARE MADE

(By United Press.)

New York, Oct. 21.—Bang! This is the day Mr. Congressional Candidate who has said he will not vote to submit the Susan B. Anthony Federal Suffrage Amendment, gets his.

All over the United States women of organizations affiliated with the National American Woman Suffrage Association are holding meetings at which their hearers will be urged not to vote for the candidates who have said they will not vote to submit. Where one candidate has been non-committal and the opposition candi-

date is in favor the non-committal will catch it in the neck, neck, neck. With two non-committal candidates the women will not recommend. Likewise with two in favor. They are strictly non-partisan. A careful poll of the opinions of all candidates on the amendment has been made.

Republican County Tour Monday
Will be Held Because Arrangements Are All Made

MEETING PLACES PREPARED

Moving Picture to Follow Speech
Monday Night Will Contain
Rushville Views

Familiar scenes taken in Rushville will be included in the republican campaign picture which will be the climax to the meeting here next Monday night following the automobile tour of the county.

The picture will be shown at the Graham Annex auditorium after the address by Congressman W. E. Humphrey of the state of Washington. The speech by Representative Humphrey, which will be the last of a number which will be delivered by Republican campaigners in Rush county on Monday, is expected to attract the largest crowd of the campaign thus far because Congressman Humphrey has held an important position in congress. He was the storm center in congress early in the Wilson administration when he made a forceful attack on the Underwood law and disclosed some of the damage to industry it had caused. The Democratic administration officials replied to him by saying that the factories affected were owned by Republicans and had been closed purposely for the effect it would have on business.

The automobile caravan is expected to leave at nine o'clock although it is likely to be a little later than that. Everyone is urged to decorate their machines, get all the passengers the automobile will carry and be prepared to start at nine o'clock. The first stop will be made at Milroy and after the meeting there, the caravan will divide and half go up the western side of the county and half the eastern, following the schedule which is announced on another page today. The two divisions will meet at Cambridge and after an hour's meeting, all will move on to Rushville for the night meeting.

County Chairman Fon Riggs announced today that one of those beautiful October days had been ordered, but that if the order was not filled, the tour and meetings will be held as advertised. In other words, the tour will be made regardless of the weather. The county chairman today took up the matter with the precinct committeemen and instructed them to arrange for a place to hold the meetings at all stops in case the weather is so bad they can't be held outdoors. People living along the route of the tour are urged to decorate their homes.

Lem Dobyns of Greensburg, candidate for joint senator, and Tom Davidson, also of Greensburg, formerly a progressive, will join the tour at Milroy and do some of the speaking. Other republicans from Decatur county have also promised to join the Rush county squadron at Milroy.

Other speakers on the tour will be Harry S. New, republican candidate for United States senator; D. W. Comstock, candidate for congress from this district; Edgar Bush of Salem, candidate for lieutenant-governor; W. R. Jinnett, candidate for the legislature; Arthur R. Robinson of Indianapolis and others.

Besides the film sent out by the republican national committee, there will be a moving picture of scenes relating to the state campaign. One scene will show James E. Watson visiting with John K. Gowdy, former state chairman and former consul-general to Paris, under the spacious awning in the back yard at Mr. Gowdy's home. In the same surroundings will be shown State Chairman

SAYS HUSBAND CHOKED HER

Hazel M. May Brings Suit For Divorce From Walter May.

Mrs. Hazel M. May filed suit for divorce this morning from Walter May, alleging cruel and inhuman treatment and failure to provide. The complaint states that they were married March 16, 1912, and separated July 1, 1916. The plaintiff alleges that he failed to provide a home for her and at no time contributed to her support. She states that he frequently struck her and at one time choked her. Mrs. May asks the custody of their two children.

HEAVY FROST IS PROMISED TONIGHT

Skies Will Clear and Tomorrow Will
be Warmer, the Weather Man
Forecasts Today

SNOW SEEN ALL OVER COUNTY

Warner weather is promised for tomorrow by the weather men, following a heavy frost tonight. The skies will clear by tonight, he says, and prepare the stage for the frost that is supposed to fall.

There wasn't any doubt about the winter weather last night, because the wind continued to blow a gale until early this morning, but the mercury did not decline below 36 degrees above zero, according to all reports. The thermometer did not register more than 38 degrees up to noon today, indicating that it was not getting warmer very fast.

Reports from all over the county today were in effect that the snow of yesterday was general. Elwood Kirkwood, county observer for the United States government, says there were some very large flakes fell in the neighborhood in which he lives and resembled a typical winter blizzard.

DIES SUDDENLY OF HEART TROUBLE

Acute Indigestion Also Combines to
Cause Demise of James Fisher
of Richland

ONCE TOWNSHIP TRUSTEE

James Fisher, 63 years old, a well known farmer of Richland township, died suddenly this morning at his home in Richland, following an attack of acute indigestion and heart trouble. Mr. Fisher had suffered for several years from heart disease, but this morning appeared to be in his usual health and ate a hearty breakfast. He arose from the table and has just reached a chair in the adjoining room when the attack came. He was barely alive when the attending physician arrived and lived only a short time, without regaining consciousness.

Mr. Fisher was widely known. He was a former trustee of Richland township and had for many years been an active republican. Mr. Fisher recently returned from a visit with his son in Chicago and it is the opinion of physicians that he did not take the proper care of himself while there. He is survived by his widow and two children, Wilbur of Chicago and Mrs. George Keisling of Richland.

The funeral services have not been completed pending the arrival of the son from Chicago.

\$100 FOR CHILD'S SUPPORT

Judge Sparks Assesses \$300 Against
Alfred Sharp When Jury Finds
for Mary Souther

Lewis J. Gowdy was granted a divorce this morning from Dora Gowdy upon payment of the costs. He is also to pay \$100 for the sole support of their child. The Gowdys reside near Arlington and a large number of witnesses from this community were called, but the plaintiff only used four witnesses and Mrs. Gowdy failed to fight the case as was expected. On a cross-complaint she had asked for \$1,000 alimony.

Gowdy alleged cruel and inhuman treatment and accused his wife of being intimate with Samuel Hinton. Three witnesses testified that they had frequently seen Hinton visit the Gowdy home and at a time when Mr. Gowdy was not there. The plaintiff was represented by Chauncey Duncan and the defendant by Goddard and Craig of Greensburg.

The jury yesterday which heard the case of Mary Souther against Alfred Sharp, decided that he was the father of her child. The jury took only three ballots, the first standing 10 to 2 for the plaintiff, the second 11 to 1 and a verdict was reached on the third ballot. The court then ordered that Sharp should pay her the sum of \$300. According to the ruling of the court, \$100 is to be paid within 30 days; \$100 on or before December 1, 1917 and the last \$100 to be paid on or before December 1, 1918. The costs of the case were adjudged against Sharp.

The grand jury was called this morning to meet Tuesday. This is the second meeting of the grand jury this term of court. What is under investigation is not known, but many witnesses have been called from Jackson township.

Judge Raymond Springer of Connersville was here a short time this morning and sustained a demurrer of Thomas E. Botorff to the second and third paragraphs of the complaint in the suit brought by Leonidas Keisling against Botorff and the Milroy Milling Company for money had, in which the demand is \$10,000. After sustaining the demurrer the court granted the plaintiff permission to amend the complaint providing it was done within ten days.

VANNUYS TO BE AT RALEIGH

Other Democratic Meetings are Announced for Next Week Also

Fred VanNuys of Indianapolis will address a democratic meeting Monday night at Raleigh. This will be his second appearance in Rush county this campaign as he spoke at Falmouth one week ago tonight. Several local democrats will make the trip to Raleigh for the meeting. The democrats will be busy in Rush county next week. MAKES DESERTS TO PROVE WORTH

Miss Garvin of Purdue Advocates
Kind Which Can be Made Before
Meal is Served

CLOSES HER LECTURE SERIES

Mixed in With Recipes and Demonstrations are Suggestions and Hints on Cooking

"The average housekeeper has enough to do at the last minute before serving a meal without bothering with a dessert, especially when there are so many desserts that can be prepared in advance.

In an effort to demonstrate the most convenient and most practical desserts, Miss Garvin, head of the domestic science department at Purdue university, suggested this and a number of other worthwhile facts to the up-to-date cook. Her demonstration this morning at the court house was on "Attractive and Simple Desserts From Inexpensive Materials." This afternoon she demonstrated "Attractive and Palatable Salads From Materials Found in the Average Home."

Mixed in with the recipes and demonstrations were suggestions on cooking and hints that make preparation easier and results better. "Chocolate, for a number of reasons is an excellent food. There is such a variety of ways it may be used; with milk it can be served a number of ways; and it keeps well. We must be careful, however, in the preparation of chocolate to break down the starch grains in cooking. For the drink chocolate, the starch in it should be cooked at least an hour. For this reason, I usually take one-half a box of cocoa, mix it with an equal part of sugar, make a paste with water and after cooking it smooth, cook it in a double boiler for an hour or two. This mixture is then put in a glass jar and at any time, by using two teaspoons of it for a cup of cocoa you have cocoa that is quickly made and well done," said Miss Garvin.

One of the first puddings demonstrated was the Norwegian Prune pudding. "This pudding can be made the day before it is served. Prunes, too, are a good basis for pudding, both because they are cheap and have nutritive value. The ingredients are: 1 pound of prunes, 2 cups of cold water, 1 and one-third cup of boiling water, one-third cup of cornstarch, one cup of sugar, one teaspoon of lemon juice. Wash the prunes, boil for one hour in water until soft, add sugar and allow to simmer ten minutes; dilute cornstarch with cold water and add and cook 7 minutes; add cinnamon, lemon juice, chili, cover with whipped cream and serve," explained the domestic science expert. "It is often as good to use water as milk in cooking and as good to use lard as butter, as long as people do not know that you have substituted."

Miss Garvin then made an excellent chocolate pudding that could be baked or steamed. "It is mixed like ordinary cake mixing the dry ingredients then adding the liquids," she said. It includes one-fourth cup of butter; 2 cups of flour, 2 teaspoons of baking powder; one-half cup of water; two-thirds of a cup of sugar; one egg and two ounces of chocolate. Melt the chocolate, mixed with a little water, mix dry ingredients and add to them the chocolate and flour and so on. It may be served with a lemon sauce or the following chocolate sauce: 2 squares of chocolate, one cup sugar; one half cup milk; one cup water; 3 tablespoons of flour, one-half teaspoon of salt and one teaspoon of vanilla. Mix dry ingredients, add water and cook until thick. Let

WALTER E. SMITH ASKS FOR DIVORCE

Alleges Cruel and Inhuman Treatment, Asserting That Wife Left
Home Without Cause.

SAYS SHE REFUSES TO RETURN

Walter E. Smith this afternoon through his attorneys, Kiplinger and Smith brought suit for divorce from Marguerite E. Smith, alleging cruel and inhuman treatment. According to the complaint, they were married April 15, 1916, and separated October 1. The complaint states that the defendant wholly without cause left the home of the plaintiff and removed her clothing and belongings and has refused to return.

It is averred that at divers times she refused to cook his meals and compelled him to leave his home and eat at public places or at the home of his mother. The complaint asserts that she has a child about two years old by a former marriage and that she gave the child her entire attention and threatened the plaintiff when he attempted to correct the child and forbade him having anything whatever to do with the child.

LIVES LOST; HEAVY DAMAGES ON LAKES

Six Sailors are Known to be Dead
and Fate of Fourteen Others
is in Doubt Today

TWO LAKE STEAMERS SUNK

(By United Press.)

Detroit, Mich., Oct. 21.—Six sailors are known to have been lost and the fate of 14 others is in doubt; two lake steamers were sunk and several stranded in the storm that swept the great lakes last night and today.

Scores of vessels were driven to shelter by the 50 mile gale which swept Lake Erie and it is feared that late reports may bring news of additional disasters.

The fate of eleven men on board the steamer Marshall F. Butters, which foundered in Lake Erie last night was established today. Ten survivors were rescued by the steamer Hartwell and landed at Fairport, O. One of the crew, the wheelman, was lost.

GIRL'S LOVER TRIES SUICIDE

Joe Borders of Connersville Takes
Blue Vitrol After Aileen Gilson's
Successful Attempt.

HER DEATH DUE TO QUARREL

Borders Tells Coroner She Drained
Bottle in Front of Him Before
he Could Stop Her.

Following closely the suicide of Miss Aileen Gilson came the attempt of the girl's lover, Joe Borders of Connersville to end his life. Borders drank a solution of blue vitrol last night but will recover. He attempted to take his life at the same place used by the Gilson girl, the home of Mrs. Myrtle Hood, 225 West Third street. Borders was not very sick and suffered more from hysteria occasioned by the girl's death.

The cause of the Gilson girl's death has been laid to a lovers' quarrel. According to the best information available, Borders and the Gilson girl had been keeping company for some time and yesterday afternoon Borders and Clifford Rigor, both of Connersville, came here to see Miss Gilson and Grace Leisure. Both girls were staying at the home of Mrs. Hood.

According to the first story told by Borders to Coroner Green, the two men decided they would go on to Indianapolis and this caused objections on the part of the Gilson girl. A quarrel followed and Miss Gilson ran upstairs. Borders followed her and the quarrel was renewed. As he turned to go she declared that she would end it all and lifted a small bottle to her lips.

Borders declared to the coroner that she drained the contents before he could knock the bottle from her hand. He then picked her up and carried her down stairs and proceeded to give her hot water. This had little effect and she died within fifteen minutes. From all indications Rigor was not in on the quarrel. After the girl's death Borders displayed signs of being hysterical and the climax came about midnight when he attempted to take his life. A physician was promptly called and today he was reported as being out of danger.

The remains of the Gilson girl were taken to the home of her parents, Mr. and Mrs. Ed Gilson, 322 East Seventh street, this morning. The funeral services will be conducted Sunday afternoon at three o'clock at the late residence by the Rev. C. M. Yocum and burial will take place in East Hill cemetery.

OLD-TIME COLD CURE— DRINK HOT TEA!

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Tee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teaspoon full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache, neuralgia, lameness, etc. Get a 25-cent bottle of old-time, honest "St. Jacobs Oil" from any drug store, and in a moment you'll be free from pains, aches and stiffness. RUSSIANS FORCED BACK BY GERMANS

Three Thousand of Enemy and Several Hundred Guns Captured by Mackensen's Army

SUCCESS IN TRANSYLVANIA

(By United Press.)
London, Oct. 21.—Under terrific blows by Field Marshall Mackensen's German-Bulgarian-Turkish army the Russians have been driven back in several places. The German war office announced this afternoon that the entire line had been forced, the main position of the enemy stormed and 3,000 Russians and several hundred guns captured. The Russian war office admitted a reverse, including the loss of an important village to the Germans, according to a dispatch from Petrograd.

In the Transylvania where the Roumanians are on the offensive the German war office claims successes in mountain fighting and declared the Roumanian losses were heavy.

Mackensen's new offensive, it is considered certain here, was ordered to bring about the withdrawal of Roumanian troops from Transylvania where the Roumanians continue vigorously on the offensive.

Reports from other sources show that the Serbs have made further advances southeast of Monastir. The French war office declares that the Bulgarians refuse to concede defeat although they admit severe attacks.

"In these days when so many dishes are hard to make and doubtful as to their success, it is a joy to have one that we know will be good. This one practically always turns out alright," Miss Garvin said. "A chocolate bread crumb pudding, an 'afterthought,' grape lacto, sour cream pudding, and cherry pudding were all demonstrated or recipes given for them.

Practical and delicious salads were made this afternoon by Miss Garvin. Too, they were new. Some of them were tuna fish salad; cabbage, banana and nut salad; pimento salad; apple celery salad with peanut butter dressing; cottage cheese salad; and mayonnaise and boiled dressing were made and sampled this afternoon.

Miss Garvin was brought here under the auspices of the Domestic Science Club and has proved an inspiration to the club because of her new and useful ideas and ability to demonstrate them clearly.

The Influence of Clothes

¶ For the visual influence of clothes, look to the stage. The matinee idol is always immaculate.

¶ For the authoritative influence of clothes look to the brass-buttoned uniform of a policeman. This impression imparts a sense of security as well as respect.

¶ For the soul-stirring influence of clothes, look to the uniformly clad corps of soldiers on parade or marching off to war.

¶ For the democratizing influence of clothes look to our conventional everyday civilian garb. Millionaire and pauper, employer and employe, doctors, lawyers, senators and scientists dress almost entirely alike.

Bandits of Revolution.

The Secretary of War, Mr. Baker, although merely saying in public what President Wilson has often implied in private, has stirred up a hornets' nest by comparing the soldiers of the American Revolution with the Villistas and Carranzistas of Mexico of today. Referring to many peoples failure to understand the Wilson Mexican policy, Secretary Baker said, "They have forgotten our own history and the Declaration of Independence, and the President has not forgotten either." He admitted that the Mexicans were a rascally lot, but said that the patriots of the American Revolution looted churches and drove ministers from them on their march to Valley Forge. He said, "We had a revolution and from its beginning to its end conditions in this country were so like Mexico that it is perfectly astounding to read." The Empire State Society of the Sons of the American Revolution, with a Democratic President, promptly met and adopted a resolution severely censuring Secretary Baker for thus likening the American patriots to the horde of Mexican bandits who have reduced that country to a state of anarchy and perpetrated unspeak-

man Will H. Hays paying a visit to Mr. Gowdy.

Pictures of all the state candidates will be shown and there will also views of the Fairbanks notification ceremonies and the visit of Mr. Hughes at the Fairbanks home when he spent Sunday there following his three-day tour of Indiana.

The national committee film shows Mr. Hughes and his family at Bridgehampton, his summer home; it then shows the most striking views taken of him and Mrs. Hughes on their trip throughout the United States; the first at Niagara Falls; then at Detroit, where he is received by large gatherings of labor men; then at Grand Forks, N. D., and Medora, N. D., where he is shown with the miners and going down into the copper mines; at Butte, Mont., he is shown being received by the cow boys. At Tacoma, Wash., San Diego, Cal., Estes Park, Colo., Syracuse, N. Y., Nashville, Tenn., he is addressing large audiences in stadiums and at open meetings. All through there are headings containing campaign arguments which are quotations from Mr. Hughes' speeches.

"The Reunited Party" is shown by pictures of Mr. Roosevelt speaking at Lewiston, Me., and of Mr. Roosevelt entertaining the Republican National committee at Sagamore Hill. It also shows the meeting between Mr. Taft and Mr. Hughes at Bridgehampton.

Preparedness and Patriotism are illustrated by scenes taken of the fighting at Vera Cruz; the funeral procession at Vera Cruz and New York of the men who were killed; also scenes of troops going to Mexico and refugees obliged to leave Mexico. There are also battleship scenes—battleships authorized under Republican administrations.

The film will be of great interest to the public as it pictures Mr. Hughes as we know him, and the pictures of him taken under varied conditions give the public an intimate knowledge of his character and personality.

This picture is an interesting film, taken of actual scenes and representing facts of historic interest.

SAYS HOT WATER WASHES POISONS FROM THE LIVER

Everyone should drink hot water
with phosphate in it,
before breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean, almost every morning, to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

If you get headaches, it's your liver. If you catch cold easily, it's your liver. If you wake up with a bad taste, furred tongue, nasty breath or stomach becomes rancid, it's your liver. Sallow skin, muddy complexion, watery eyes all denote liver uncleanness. Your liver is the most important, also the most abused and neglected organ of the body. Few know its function or how to release the dammed-up body waste, bile and toxins. Most folks resort to violent calomel, which is a dangerous, salivating chemical which can only be used occasionally because it accumulates in the tissues, also attacks the bones.

Every man and woman, sick or well, should drink each morning before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Limestone phosphate does not restrict the diet like calomel, because it can not salivate, for it is harmless and you can eat anything afterwards. It is inexpensive and almost tasteless, and any pharmacist will sell you a quarter pound, which is sufficient for a demonstration of how hot water and limestone phosphate cleans, stimulates and freshens the liver, keeping you feeling fit day in and day out.

THREE TROPHIES OFFERED

Flower of American Marksmen to
Meet in Competition—Special
Ammunition Made.

(By United Press.)

State Camp, Black Point Reser-
vation, Jacksonville, Fla., Oct. 21.—
The flower of American marksmen
tomorrow will take the firing line for
the national individual rifle cham-
pionship, which marks the opening
of the annual national rifle matches,
here.

This event will be followed by the
national pistol matches, which, in
turn will be followed by the event of
supreme interest to rifle enthusiasts
—the national team matches.

This year, for the first time in his-
tory of the matches, Congressional
appropriation was made for the par-
ticipation of civilian teams—each
state to send a representative team,
with expenses paid by the War De-
partment.

The national team match carries
with it three trophies, much sought
after by marksmen. The first in de-
sirability—since it goes to the team
with the highest score—is the Na-
tional Trophy, a bronze plaque de-
picting Mars holding in leash the
dogs of war. This was won in the
1915 competitions by the United
States Infantry team, and is on ex-
hibition at the War Department. It
measures 27 by 48 inches.

The second winning team is award-
ed the Hilton trophy, one of the old-
est trophies in competition today. It
is the most expensive of the three, be-
ing valued at \$3,000. It was first
competed for in 1878, at the old
Creedmore, New York range. It was
presented to the United States Gov-
ernment in 1903 at the inauguration
of the National matches, by the Na-
tional Rifle association.

The third trophy is the noted,
"Soldier of Marathon" bronze
trophy first placed in competition in
1875 in the old Sea Cup Girt days.

The order of fire and conditions
governing the national team match
have been set as follows: "first,
rapid fire, 200 yards; second, slow
20 shots at each range. No sighting
shots are allowed. Positions, for
fire, 600 yards, third, slow fire,
rapid fire, kneeling; slow fire prone
without sandbag rest at 600 yards.

The arm will be the United States
service rifle to be furnished by the
Ordinance Department. Special am-
munition has been manufactured by
the Department for the matches.

RUSHVILLE WINS ANOTHER CONTEST

High School Basketball Team Takes
New Palestine Down the Line
to Tune of 38 to 11

CONNERSVILLE HERE NOV. 3

The Rushville high school team
annexed another victory last night,
winning over the New Palestine high
school by a score of 38 to 11. De-
spite the lop-sided score the game
was interesting and both teams dis-
played flashes of real form. The
local team is rapidly rounding to
and the victory over New Palestine
was earned. The first half ended 14
to 5 in favor of Rushville. New
Palestine went to pieces in the last
half and Rushville walked away
with the game.

The New Palestine team was ac-
companied here by a crowd of 75
rooters and there was plenty of
noise making. In the curtain raiser
the high school second team defeat-
ed the Tigers, 18 to 9.

The next game, on the Rushville
schedule is with Arlington next Wed-
nesday night and Coach Masters
believes these preliminary games will
condition the team and assure a vic-
tory over Connorsville here on Nov-
ember 3.

ST. LOUIS MAYOR PRAISES WATSON

Henry W. Kiel, Attending Jovian
Convention in Indianapolis, Says
he Should be Recognized

WELL QUALIFIED TO SERVE

Declares Republicans of Missouri
Feel That Indiana Will Stand
by Him This Election

Indianapolis, Ind., Oct. 21.—
Henry W. Kiel, mayor of St. Louis,
Mo., who is in Indianapolis attend-
ing the Jovian convention, was a
caller at the Republican state head-
quarters in the Hotel Severin yester-
day. Mr. Kiel declared that the
campaign in Indiana is being watch-
ed with the keenest interest outside
of this state, particularly the cam-
paign for the election of the United
States senator.

Mr. Kiel called at the offices of
James E. Watson, candidate for
United States senator, and congratu-
lated him on the effective campaign
he is making.

After leaving Mr. Watson's head-
quarters Mayor Kiel said:

"The Republicans of Missouri re-
gard Mr. Watson as a man particu-
larly well qualified to serve the
people of his state and of the na-
tion. He has had a wide experience
in legislative affairs, and has a re-
cord for honesty and loyalty that
the people of Indiana should recog-
nize by a decided majority in the
November election. Mr. Watson's
consistent course in standing for
the great principle of a protective
tariff is known and recognized
throughout the country. He has
stood for the protective principle at
times when such stand was not pop-
ular, but he had the strength of his
convictions, and his support of an
adequate tariff law has been vindic-
ated. We, in Missouri, have faith
that Indiana will recognize the work
and worth of Mr. Watson."

When James E. Watson concludes
his tour of Marion county tonight
with a rally at Fountain Square, in
Indianapolis, he will have made ap-
proximately 35 speeches in the coun-
ty since Monday noon. He spoke to
the republican traveling men's or-
ganization at 1:30 this afternoon at
the Severin hotel and at 3 o'clock
he was to speak at Cumberland. At
7:30 he will address an audience at
Morris and Harding streets and at
nine at Fountain square.

Before a crowd of farmers at Ac-
ton last night, he again assailed the
Democratic national policies, par-
ticularly with reference to the tariff

The Stove with a Little Furnace In It

Have you seen the ESTATE HOT STORM—the stove
with a little furnace in it? If you are interested in the heating
problem, don't fail to investigate it thoroughly.

We make no extravagant, impossible claims for this stove. It
will NOT consume ROCK or SLATE in the coal. But it WILL
burn up every particle of combustible matter in the fuel and give
you the most comfortably warmed house you ever had.

Its JOINTLESS LEG BASE and bottom insures a warm
floor and a perfect fire keeper during the life of the stove.

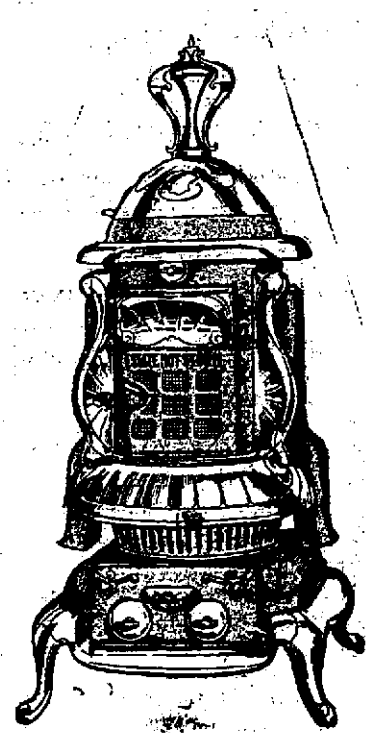

It has the most perfect hot blast system you ever saw—no flues
or rings to fill with ashes and burn out.

The "Little Furnace" is the greatest improvement ever added
to a hot blast stove. All the others are practically the same as they
were fifteen years ago.

There are a number of other important features on this won-
derful stove which we will be glad to explain to you.

Leave your order now and avoid disappointment later.

question and the Mexican situation. He declared that President Wilson has declared repeatedly in favor of a protective tariff as opposed to the present Democratic law on revenue schedules and sounded a warning note that the United States will force the Republican tariff system after the close of the European war. "Woodrow Wilson has repeatedly declared for the protective tariff system in his history, written before he became President," Mr. Watson said. "The Democrats were given control

said, "and I have never known a man who could take a more directly opposite view of a subject than he has of the tariff issue."

With reference to the Mexican situation, Mr. Watson cited the bungling operations of the Wilson administration and showed how the American flag has been insulted repeatedly by Mexicans. A definite policy that will indicate to the nations of the world that the United States means to protect its citizens everywhere is all that is needed to

keep the country out of war, he declared.

Mr. Watson spoke at noon yesterday to the employees of the Prest-O-Lite Company. He pointed out the failure of the Democratic party to keep its campaign pledges. He referred particularly to Senator Kern's campaign six years ago with reference to the high cost of living. At that time Kern asserted that if of both Houses of Congress the cost of living would be reduced material-

IN INDIANAPOLIS

A party of little folks from this city went to Indianapolis this morning to attend the birthday party given by little Miss Elizabeth Wolfe, daughter of Mr. and Mrs. Charles Wolfe, formerly of this city. It was an all day affair and from this city were Marjory Beale, Kathryn Blount, Frances Payne and Kathryn and Joseph Watson.

EMBROIDERY CLUB

Several lovely bouquets of cosmos adorned the rooms in the home of Miss Nelle Winship in East Fifth street when she entertained the members of the Embroidery Club yesterday afternoon. The guests spent an agreeable time together over their needlework and were later served with a delicious one course luncheon. Miss Lena Buell of Raton, N. M., was among the 22 guests.

Mrs. Francis will give "The Birth of the State" and Miss Nellie King will review a book by Gene Stratton Porter.

OYSTER SUPPER.

Mr. and Mrs. Malcolm Newkirk entertained a number of their friends last evening with an oyster supper at their hospitable home in West Tenth street. The evening was pleasantly spent in enjoying music and various informal games.

THIMBLE PARTY

A delightful social courtesy was extended to Mrs. George M. Myers of Kansas City, Mo., by her hostess Mrs. Claude Cambern, at the thimble party given at her home in North Main street yesterday afternoon. A congenial group of fifty ladies was entertained while strains from the Victrola floated through the rooms. Lovely bouquets of fall flowers aided in the pretty picture that the spacious rooms presented.

Late in the afternoon the guests were seated at small tables for the service of an elegant two course dinner.

HALLOWEEN MEETING.

Halloween ideas predominated at the meeting of the Social Dozen held with Mrs. Sam Innis at her home in North Perkins street yesterday afternoon. The regular club members were present for the social time together, after which a two course luncheon was served in the dining room. From the center of the pumpkin in the center of the table, tumbled bunches of marigolds. Surrounding this and all about the tables were weird black witches, owls, cats and other suggestions of the season. The candles, which cast a soft glow over the table were hooded with Halloween shades. The next meeting of the club will be with Mrs. William Mulno.

Mrs. Dorothy Anderson, district deputy of the R. N. of A. will attend the regular meeting of the order Monday evening. Every member is urged to be present.

Miss Hannah Morris entertained the eight members of the Card Club at her home in East Fifth street this afternoon. At the conclusion of the bridge games, dainty refreshments were served.

The state convention of the D. A. R. is to be held in Richmond on Tuesday, Wednesday and Thursday of next week. Excellent programs have been arranged for each of the sessions. Mrs. Will Dill as regent, and Mrs. Sarah Giffin and Miss Eva Ball as delegates will be among those who attend from the local chapter.

EASTERN STAR

Seventy members of the Eastern Star sat down to the pitch-in supper which was in reality a banquet at the Masonic temple last evening. One long table seated all the guests. It was decorated with lovely bouquets of scarlet sage and lit with red candles in crystal holders. An elegant supper was served. Following, three candidates were taken in the order. Miss Dennis and Miss Matheny were guests at the banquet.

FRIDAY AFTERNOON CLUB

The first meeting of the season for the Friday Afternoon Embroidery Club met with a full attendance yesterday at the home of Mrs. C. C. Thompson at her home in Glenwood. Fall flowers were used for decorations and Halloween favors were given each of the guests, during the service of the dainty refreshments. Aside from the club members guests were Mrs. J. C. Bussel, mother of the hostess, Mrs. Gny. Bussel and son, John Phillips of Ben Davis and Mrs. Green Thompson.

What the Women's Clubs Are Doing

Mrs. Culla J. Vayliger of Upland was re-elected state president of the W. C. T. U. recently at the state convention of the society held in Huntington.

The pageant to be conducted at Brownstown in the near future will be given by the combined missionary societies there.

Four hundred women attended the suffrage dinner given in Terre Haute Saturday for the Wabash Valley Suffrage association. Miss Betsy Edwards president of the state league and well known here was one of the principal speakers. Talks, too, were made by other prominent suffragists.

PLANNING FOR THE WIERD HALLOWEEN PARTIES STARTS

With the approach of Halloween comes the planning for the weird little parties and mad gaities that rule the day. Already the new and clever little souvenirs are in evidence in the stores, even the masques and costumes have made their appearance in readiness for the eventful day.

The ideas for the affairs need not be new ones. In fact the old superstitions continue to be most popular, thanks to the fact that they are tried and true. Incidentally most of these diversions are tests for true love. Some of the most popular ones follow.

Take three saucers. In the first put clear water and leave the third empty. Lead a blind folded maiden or man to make the test. A forefinger dipped into the clear water shows that a young and handsome

bride or groom is on the way; a finger dipped into the soapy water foretells marriage to a widow or widower; but if the finger lands in the empty dish, single blessedness is sure to follow.

Parse an apple round and round, whirl the peeling three times around your head, then throw it behind you, repeating:

"By this magic paring I wish to discover the first letter of the name of my true lover."

Then turn and behold the twisted initial.

Go blindfolded up to a table where there are vegetables of all seasons. If you draw celery, your future husband or wife will be tall and slim. If you draw cabbage—you will have no difficulty in coming to the right conclusion.

TALENTED READER WILL APPEAR HERE

On Tuesday evening of next week, Mrs. W. D. Long, a very talented reader from Indianapolis will give a recital here at the St. Paul's M. E. church under the auspices of the classes taught by Mrs. Hackleman, Mrs. Wolcott and E. B. Thomas. The Rushville people are very fortunate in having this opportunity to hear Mrs. Long again, for she has appeared here before with universal popularity. Her speciality is negro dialect.

The Shelbyville Democrat gives the following account of her program given there Saturday:

Mrs. W. D. Long, of Indianapolis, a distinguished reader who has appeared before large assemblies throughout the country and before chautauqua audiences, everywhere was warmly received. Her speciality is negro dialect. Being a native of the Blue-Grass region around Lexington, Ky., she thoroughly understands the negro's characteristics and speaks knowingly. Her selections dealt with plantation life "befo' de wah," life as lived in the old Colonial mansions and in "the quarters," the Patriarchal life prior to 1861, when the negroed a gay, happy, irresponsible life. She paid tribute to the colored "mammy"—her gentleness and tenderness and the love that existed between her and the white child. One number pictured the negro's desire "to ac' just like quality folks." Another, described the fascination of "Old Missus Fine Clothes." A gentle touch of sarcasm was couched in "Black Mammy's Experience at a Mother's Club," and hearing what educated folks had to say about "de raisin' of chillun." All of which did not dispel Mammy's belief in the moral 'suation of de hickory switch." Among other numbers given were "Mother's Experience with Seven Children," "Hayin' Pietur' Tuk," "Old Turkel-Tail Fan," and "Uncle Zeebe's Appeal" to be retained as sexton of the cemetery. Mrs. Long's numbers played thru the entire gamut of the emotions. She recited with telling effect Paul Laurence Dunbar's "Dey 'listed colored soldiers," in which pathos, pride and patriotism were intermingled.

Mrs. Long's magnetic personality and sympathetic insight into negro characters carried her audience with her during recital.

A very appropriate program on Discovery Day was given at the last meeting of Connorsville's Carey Club, "The Discovery of America by Columbus" and "Earlier Discoveries by the Northmen" were subjects of the two principal papers read.

Clinging to the popular centennial programs for this year, the "Woman's Club" at Mt. Summit had papers on "Colonial Writers and Literature of America" and "Religious and Social Reformers of America."

Gossips

From a child I always liked to hear a bit of gossip, and was not slow in repeating all that I heard. Several times I found there was not a word of truth in the gossip I repeated. Still, I did not realize the harmful effect upon my character, nor the injury done to others. As I grew, this bad habit also grew.

Once I was much embarrassed by being asked by the malinged one why I had told such and such a thing. I easily got out of this by giving my authority, but I had made an enemy for life.

One day while reading a magazine I chanced on the following story.

A Catholic woman came to her priest in confession. Among other sins, she confessed repeating a piece of gossip about a neighbor to a number of friends. The priest told her to go and gather a lot of thistle blooms, and scatter them to the winds, and return to him. She did this; and when she returned, she was told to go and gather up all the thistles she had scattered.

"But I cannot do that," the woman replied. "Some of them have been borne so far I could never find them."

"The gossip you have repeated is, like the thistle, scattered all abroad," replied the priest. "Until you can gather up and take back each unkind word, you can never repair the wrong done this neighbor. Go and sin no more."

This little story opened my eyes, and I realized for the first time the magnitude of the fault and what a hold it had on me.

I have had many a hard fight to overcome the gossiping tendency, but feel that I have at least conquered.—American Magazine.

BUGS HAVE MERRY TIME WITH HUMANITY DOWN IN BRAZIL

Margaret Mason Digresses Long Enough To Explain, While On Her Tour Of South America, The Ticklish Positions In Which You May Find Yourself, While Trying To Avoid Ticks. By The Watch, There Have Been Found To Be As Many As Sixty Ticks A Minute. You May Flee The Bed, She Says, But You Can Never Flee The Flea.

BY MARGARET MASON.
(Written for United Press.)

All the bugs are full of tricks

Down in Rio Bay

Folks are also full of ticks

On their jungle way.

Then to nearly drive 'em frantic.

As they start to flea

Ant and tick cut up an antic.

Ere they let 'em bee.

Rio de Janeiro, Sept. 20—(By Mail)—Brazil abounds in bugs human and otherwise. Joyous little fleas leap lightly from limb to limb. You may flee your bed but you'll not flee the flea. Strange as it may seem you won't find a tick in your bed though. The festive tick nests rather in the jungles. When you go mountain climbing, orchid hunting or butterfly chasing you'd better watch out for ticks for you're sure to be covered with them. If you keep a watch on your wrist you'll find as many as sixty ticks a minute. I know a man personally who made this ticklish record.

Brazil is the happy hunting ground of the ant, relatively speaking. There are all sorts and conditions of ants, big, little, red brown, and black. A young American engineer told me of an ant experience he once had in the interior of the country. He stopped his horse to rest under a huge tree and when the horses tamped and pranced around he investigated. The whole ground seemed to be moving with a vast army of ants while up in the tree was another mess of them cutting the leaves in half and dropping them down to the ants below who carried them away. The young engineer said when he came back over this same road in a couple of hours the tree was stripped absolutely bare.

As can readily be seen ants are rather rough on vegetation and when they get in an orange grove they strip it in a single night.

Up in the interior the natives get even with the big fat ants by eating

beaten. Mound on flat dish in conical shape. Place on rice halves of stewed pears. Sprinkle with ginger.

Nut Bread (With Baking Powder.)

3 cupfuls flour, 3 teaspoonfuls baking powder, 1 teaspoonful salt, 1 cupful sugar, 1 cupful chopped walnuts, 1 egg beaten light, 1 cupful milk, 2 tablespoonfuls melted crisco. Sift together flour, baking powder, salt and sugar. Add chopped walnuts, egg beaten light, milk and melted crisco. To stiffen, let stand 15 minutes before baking. Bake 45 minutes.

Good housekeepers use Red Cross Ball Blue. Makes clothes clean and sweet, like new. All grocers.

them. They roast them till they pop. This is considered a great delicacy and although I never tried any in this style I've had several small black ants served in my soup.

A meek little bug is one that starts in at the foot to get a toe hold on life. It burrows in under your toe nail and proceeds to lay eggs and establish a cosy little home in it. An ingenious fellow Yankee who decided to leave one nesting in his toe nail till he got back to the U. S. A. where his doctor brother could do some research work only lost three of his toes as an outcome of his scientific enthusiasm.

A natty little guat swarms around the lights down in the town until it gets tired. Then it sheds its wings and proceeds to eat up all the wooden furniture and household fixtures in sight. Native wool is just pie for it. A dining room suite is only a light lunch. That is why wood for finishing houses and making furniture is mostly imported here. This little insect has a great literary bent also and has been known to go through a complete set of Shakespeare in a single night.

'Any thing in spiders from a teeny weeny one to a tarantula can be spied around Rio and there is an insect like our cricket only three times as large that serenades you madly in a great chorus when the night begins to fall. It is tobacco brown in color with a blunt head and has been christened "Gigaro" because by a wild stretch of the imagination it may be said to resemble a cigar butt. Three opal like jewels are set in its forehead. Other jeweled bugs are the many iridescent beetles that abound here. Of the legion of gorgeous butterflies one of black and scarlet is especially odd with a perfect figure 88 on each rear wing.

And yet with this great array of insect life of which I have only cited a paltry portion Rio doesn't need screens in its windows. It lacks the two greatest insect pests of the U. S. A. the house fly and the mosquito. Not but what it was formerly filthy with this pernicious pair but the government got busy. They established a department of sanitary police who spend their time tracking mosquitoes to their lair and swatting flies. All water supplies are regularly personally inspected and no pools of still water allowed to collect anywhere hereabouts.

I saw a squad of these sanitary police in a patrol wagon the other day on the Avenida Rio Branco. They were all heavily equipped with guns and wartridge belts. I suppose they were going out to hunt mosquitoes.

OLD LADY FEELING FINE

After Taking Four Bottles Of

Cardui, The Woman's Tonic.

Cobden, Ill.—"Having used Cardui, the woman's tonic, in my family, for a number of years," writes Mrs. Kate Metz of this town, "and always with such good results, I feel it my duty to write you about it, so that you may publish my letter.

My mother is living with me, and she is 52 years old. For the last three or four years, she has been troubled a great deal with cramping spells, and for days at a time, she would have a severe headache.

She read of how much Cardui has helped other women who were sick and ailing, and decided to give it a trial. She began taking it three times a day, and since then has been getting along simply fine.

Mother only used four bottles of Cardui, but she is no longer troubled with the severe headaches, and her stomach is so much stronger that she can eat most anything.

We both feel that any lady who is not strong and well, would be greatly benefited by the use of Cardui. Try Cardui.

American Cavalrymen on Border are Made Target for Mexican Bullets and Skirmish Follows

ENGAGED BY LARGER FORCE

Whether Attacking Party Was Composed of Bandits or de Facto Troops Has Not Been Learned

San Antonio, Texas, Oct. 21.—American troops and Mexicans clashed near San Jose, in the Big Bend country, Thursday afternoon according to a report received by General Funston last night from Colonel Joseph Gaston, commander of the district. The fight lasted 45 minutes.

No losses were suffered by the Americans and information is lacking regarding loss among the Mexicans.

Colonel Gaston's report said that a band of about 30 Mexicans opened fire on a detachment composed of 23 men of the Sixth Cavalry and Texas National Guard Cavalry squadron engaged in patrol duty between Presidio and Ruidosa. Lieutenant Cudington, of the Texas squadron, commanding the troops ordered his men to return the fire.

A vigorous exchange of shots continued for a period of 45 minutes, the Americans and Mexicans firing in skirmish formation from covered position on either side of the Rio Grande. Information from Colonel Gaston did not indicate that the United States troops crossed in pursuit of the Mexicans.

After the fighting Lieutenant Cudington returned to Ruidosa with his command.

Whether the Mexicans were de facto Government troops or members of a bandit band was not known by General Funston. He is awaiting detailed report of the action.

Colonel Gaston reported that Major A. V. P. Anderson, of the Sixth Cavalry, has gone to San Jose to investigate the incident. Colonel Rios, commander of the Carranza garrison at Ojinaga, has gone to the scene of the fight for the same purpose, according to Colonel Gaston.

OBITUARY

Mary A. Butler was born April 14, 1845 and passed to her reward at her home in Indianapolis, Sept. 21, 1916, aged 71 years. She has been a sufferer for many years. Her last illness was of four weeks duration.

In the midst of her suffering she could rejoice in her loving Shepherds care and the kindly sympathy of her family and friends and she lay down at night never to awaken on earth. She was found sleeping in the sleep of them who "rest from their labors."

When a child she became a member of the M. E. church and learned from her Master that which gave her peace. Mrs. Butler was born in Cincinnati, Ohio, but moved to Metamora, Ind., when a child where she lived until after her marriage to Henry Butler on Jan. 15, 1865, with whom she lived happily until his death at their home in Manilla, Ind., on Dec. 8, 1910.

She is survived by four daughters Mrs. A. S. Porter, Mrs. Henry Hartman, Edna and Mayme Butler. One sister, and one granddaughter. She also leaves numerous friends and relatives of her husband and herself.

Mrs. Butler was a woman that was well liked, and as a mother was all that the name implies, looking always for the welfare of her children.

I dropped a pansy on her brow; "Pansies for thought," I said, And marveled when they whispered low

That she I love was dead.

I plucked a lily in her hand; "An Easter hope," I said, And turned to the invisible; None there, or here, is dead.

I laid a rose upon her breast; "The rose for love," I said.

My heart was bounding with pure joy,

I knew she was not dead.

For she was an embodied love,

And thought, and purpose high.

These, the unseemly, eternal things,

How can they ever die!

WOMEN ANNOUNCE RESULT OF POLL

This is the Day That Mr. Congressman Who Opposes Them Will Get His.

RECOMMENDATIONS ARE MADE

(By United Press.)
New York, Oct. 21.—Bang! This is the day Mr. Congressional Candidate who has said he will not vote to submit the Susan B. Anthony Federal Suffrage Amendment, gets his.

All over the United States women of organizations affiliated with the National American Woman Suffrage Association are holding meetings at which their hearers will be urged not to vote for the candidates who have said they will not vote to submit. Where one candidate has been non-committal and the opposition candi-

date is in favor the non-committal will catch it in the neck, neck, neck. With two non-committal candidates the women will not recommend. Likewise with two in favor. They are strictly non-partisan. A careful poll of the opinions of all candidates on the amendment has been made.
